THE EVENING CRITIC.

Republican To-day.

Owing to the publication of flagrant untruths concerning this church and its rector, the undersigned feel it a duty to make the fellowing statement: First—St. Luke's Church was built by the convocation of Washington. Second—All the contracts for this church were made by the ministee of convocation "and afterware." I must be the contracts for this church were made by the ministee of convocation "and afterware." I must be the occupancy and employment of the church property. Third—Dr. Crammell has never contracted for a single existent debt of this church, and is no way responsible for it. Fourth—Over \$13,000 have been collected for this church by Dr. Crummell, but all the disbursements have been made by the "committee of convocation." Fitth—The debt of the church is but little over \$4,000. Constant reductions are being made by Tr. Crummell's exertions, ever \$2,000 have been paid on it by the committee, Sixth—Vigocouls of forts are being made by Dr. Crummell, under the committee's direction, to liquidate the church debt. His congregation are now trying to raise \$4,000 toward the same, and the seal and interest of St. Luke's people may be seen in the fact that within ten days nearly one-third of this amount has been subscribed by his devoted people, and some of it already paid in. Seventh—St. Luke's Church is not to be sold, and the publication of anonymous and malignant assaults upon the rector is grossly unjust and injurious to the interests of the church, creating distrust and checking the willingness to assist in relieving the church from its present embarrassments. Committee of Convocation—Douglass F. Forrest, D. D., and John Marbury, ir. We, the undersigned, cordinal tendency of the Church of the linearnation; Charles Abert.

There's a wideness in God's mercy, Like the wideness of the sea; There's a kindness in His justice Which is more than liberty.

There is no place where earth's sorrows Are more feli than up in Heaven: There is no place where earth's failings Have such kindly judgment given. There is grace enough for thousands Of new worlds as great as this; There is room for fresh creations In that upper world of biles.

For the love of God is broader Than the measures of man's mind; And the heart of the Eternal Is most wonderfully kind.

But we make this love too narrow By false limits of our own; And we magnify this strictness With a zeal He will not own.

If our love were but more simple
We should take Him at His word;
And our lives would be all sunshine
In the sweetness of our Lord.

Camp-Meetings and Sunday Trains. Camp-Meetings and Sunday Trains.

Rev. Mesars, Downs, Harbock, Baer, Hagey, Gardner, Welch, Richarlsen, Morgan and Reed, members of the Washington Freachers Moeiting, have addressed a letter to the ministers, of the Methodist Episcopal Church, indersing and commending the action of the Baltimore Conference on Sunday trains to camp-meetings. The letter condemns the Washington Grove Association for encouraging the running of trains to its camp on Sunday, and calls upon the ministers of the church to discountenance the Washington Grove "and all other camp-meetings supported in whole or part by practices contrary to the Word of God, and expressly condemned as such by the highest councils of the Methodist Episcopal Church."

OBSERVANCE OF THE SABBATH.

Address of Ministers of the Methodist Episcopal Church on Sunday Trains to Camp-Meetings—The Ac-tion of Baltimore Annual Confer-ence Indorsed and Commended. To the Ministers and Members of Washington District of the Baltimore Annual Conference:

To the Ministers and Members of Washington District of the Bultimore Annual Conference:

DEAR BESTITIES: For several years past the Bultimore Annual Conference has urged upon its ministers and members the importance of the observance of the Sabbath day in connection with our annual camp-meetings. It has especially condemned "Sunday trains and Sunday trains a sunday trains a sunday trains and the purpose to continue similar arrangements in connection with the camp this year, not withstanding the explicit condemnation thereof by the Conference at its last session, has induced the undersigned members of the Washington preachers' meeting to call to your attention the declarations of our Conference, to state the reasons which impelf them to absent themselves from the approaching camp meeting a washington Grove, and urge upon you a compliance with the advice and request of the Conference said: "Above all others, the Church of Christ should be free from connivance at any practice tending to debase our condemnation of everything in connection with our camp-meetings tending to debase the Sabbath, such as trafficking on that day, and the running of Sunday trains. We arge the strongest efforts to carrect these evils."

Inspired by this action of the Conference, the Emory Grove Camp-Meeting Association

Sunday trains. We urge the strongest efforts to correct these evits."

Inspired by this action of the Conference, the Emory Grove Camp-Mosting Association declined to hold a camp the following summer unless the Western Maryland Endrod would comply with its original agreement not to run excursion trains to their grounds on the Lord's day. At the session of 1889 the Conference commended this resolution and said: "We deem such action wise and proper, and insist that every means should be employed to provent Sabbath desecration at camp-meetings and religious services everywhere throughout our bounds."

The General Conference of our Church, its highest authority, in the pastoral attices of 1890, in referring to camp-meetings, spoke "of the desecration of the Sabbath day in public travel as a crying evil that demands correction."

"or the descration of the Sabbath day in public travel as a crying evil that demands correction."

These utterances of our General and Annual Conferences were disregarded by the Washing. These utterances were disregarded by the Washington Grove Gamp, and the profits thereof were divided between the railroad and the Mashington Grove Gamp, and the profits thereof were divided between the railroad and the association. In pursuance of its established policy at the stockholders' meeting of October 24, 1881, a resolution "recommending the finance committee to decline to receive in the future a drawback on tikes also do rissued on the Sabbath day" was indefinitely postponed.

Thus did the association again put liself in opposition to the declarations of the General and the Railimore Annual Conferences.

Impressed with the importance of this subject, the Annual Conference at its recent assistent and the Railimore Annual Conference of the sanctity of the Sabbath day, and passed the following resolutions:

First—That we honor the established precedent of the brethren of some of our campmenting associations in their conscientings scrupies in retusing to negotiate with railroad corporations to set at naught God's law; and do hereby pledge ourselves, as ministors of the Goopel, to defend and exemplify to the utmost of our ability the moral precepts which they have magnified.

Second—That we express our unqualified condemnation of all camp-meeting associations which agree to receive a rebate from Sunday travel on the railroads; and we urgo our people and preachers to discountenance all camp-meeting associations which agree to receive a rebate from Sunday travel on the railroads; and we urgo our people and preachers to discountenance all camp-meeting state that the forestere from the association would desist in the futures from the association would desist in the futures from

which agree to receive a rebate from Sanday travel on the railreads; and we upge our people and preachers to discountenance all compressings that centinue such practices.

Sincerely did we hope that the treathers. Sincerely did we hope that the treathers.

Sincerely did we hope that the treathers of the association would desist in the foliare from the evils thus referred to, but to our great sortward of the second of the second of the second of the second of the result of the second of the result of the preachers meeting, they again resolved upon the continuance of their former practice in regard to the rebate from Sunday trains.

Two continuance of their former practice in regard to the rebate from Sunday trains.

Two continuances of their former practice in regard to the rebate from Sunday trains.

Two continuances of the resolvent of May, 1883; because addressed to the "association and not the executive committee," the other addressed to and received by the executive committee, was laid on the lable. The action of the association in thus persisting in practices which the conference has condemned year after year "as a desceration of the Sabbath day, and tending to debase it in the public estimate," "as crying evils to correct which it urged and insisted upon the strongest efforts," in our judgment not only releases every minister and number of the M. E. Church from the obligation of supporting the camp-meeting, this on the centrary calls upon then by every proper effort to discountenance and withdraw from it. The observance of the Sabbath day is of far more value to the Church and commending that any experience of the Sabbath day is of far more value to the Church and commending to you that the bases of Christian morals and social order are being intaked. "It has been sabled, with the each service, As the conference and that the bases of Christian morals and social order are being tracked. "It has been sabled, with the each paper of the Mey Sarphroving of, and commending to you that of our commendations of pa

condemned as such by the highest councils of the M. E. Church.

What is Going On in the Social World Mrs. Mary Clemmer will remain in the city until the 1st of August, when she will wing her way northward. Her home on Capitol Hill'is very attractive, and has had a new charm for me ever since theard that it is the realization of a dream dreamed in her saddest days, when the pretty house in New York was swept from her, and Hie locked very gray and bare. She took to her pen, lived in cramped quarters and thought of the house she would have when Fortune and she were once more triends. Cortain bronzes and statustics would be placed in certain piches of a parlor, which was to have just such a shape and to occupy just such a space; the bedrooms should be furnished in certain colors, and filled with the dainty elegancies with which a woman of refined mind surrounds herself. The diningroom and library should be just so, and the scent of certain flowers should come in at the open windows in summer time. The house on the Hill is and has all this, and to center the pleasant parlor, with its long mirror, its bronze Mercury of the "Column of July", its pleasant parlor, with its long mirror, its bronze Mercury of the "Column of July", its pleasant parlor, with its long mirror, its bronze Mercury of the "Column of July", its pleasant some extremely lateresting specimens of their new curreincy—paper dollars.
